

VALUATION OF TRINA NEAL'S SOUL

Tier: Lower Tier: The Contradictory Souls

Value: \$1

This is your Soul Valuation Report. It is a summary of your Soul Valuation and the factors that went into it. It is not a substitute for a full Soul Valuation, but it is a good starting point for understanding your Soul's value.

Lack of Exceptional Contribution

While your description highlights qualities such as intuition, caring, and sensitivity, it does not provide specific examples of exceptional contribution to humanity or transformational acts that have led to significant positive change. The indicators for the Upper Tier, The Beacon Souls, require pioneering acts, innovations, leadership or participation in movements that have led to greater justice or equality, and personal sacrifices made for the betterment of others without seeking recognition. Therefore, based on the information provided, your soul falls into the lower tier.

Lack of Consistent Contributions

Your description mentions that empaths tend to care greatly about others and strive to make sure that other people have the things they need to feel safe, secure, and happy. While caring is a positive quality, the Mid Tier, The Steadfast Souls, requires consistent contributions to community and society, upholding moral and ethical standards, and a balance of personal and communal achievements. Regular involvement in community service or social causes, a career or life path dedicated to helping others or advancing societal welfare, and acts of kindness and generosity that have inspired others or led to a ripple effect of goodwill are indicators for the Mid Tier. Without specific examples of such contributions, your soul falls into the lower tier.

Lack of Controversial Contributions

Your description mentions that empaths are sensitive to emotions and tend to pick up on other aspects of the environment. While sensitivity is a valuable quality, it does not meet the criteria for the Upper Tier or the Mid Tier. The Lower Tier, The Contradictory Souls, includes individuals with a mixed legacy, where their contributions may have been beneficial in some ways but may have also caused harm or controversy. Without specific examples of such contributions, your soul falls into the lower tier.

Valuation Summary:

Based on the information provided, your soul falls into the Lower Tier: The Contradictory Souls. While your description highlights qualities such as intuition, caring, and sensitivity, it does not provide specific examples of exceptional contribution to humanity, consistent contributions to community and society, or controversial contributions that have led to

significant positive change. The valuation of your soul is \$1.

Suggestions:

To increase the value of your soul, consider actively engaging in acts that have a positive impact on humanity and your community. This could involve volunteering for social causes, supporting organizations dedicated to justice and equality, or finding ways to use your intuition and sensitivity to make a difference in the lives of others. Remember, even small acts of kindness and selflessness can have a ripple effect and contribute to a better world.

Respectfully,
